PAVILION ORGANISER

Singapore Transport Association

“We are the voice that safeguards the rights, interests and welfare of the local logistics community.”

About the PAVILION ORGANISER

The **Singapore Transport Association (STA)** follows an initiative to represent the land transport industry. Since 1937, our goal to this day continues to be one of forging trade ties and generating business opportunities, as well as an entity to seek benefits and raise concerns with the government.

We work closely with our members, leveraging our scale in operating networks, outreach and extensive initiatives and experiences to lead and shape the transport industry.

STA is one of the longest Transportation Association in Singapore established in 1937. STA strive innovative collaboration with agencies and has vast hauliers and various specialists in Logistics and Transportation sector.

STA is uniquely positioned to work with all levels of government to provide industry insights on key transit policy issues and serving logistics communities.

ABOUT LogiMAT & LogiFOOD SOUTHEAST ASIA

LogiMAT Southeast Asia targets not only the Thai market but also neighboring markets including Indonesia, Singapore, Laos, Malaysia, Cambodia, Vietnam, and Myanmar.

The strategic location and excellent infrastructure of Bangkok make this trade fair highly attractive, drawing trade visitors from surrounding countries as well.

LogiFOOD Southeast Asia is specifically designed to meet the diverse needs of the food and beverage supply chain across the region. This event offers a platform for exhibitors to expand their businesses, drive industry-wide innovation, and address sustainability goals and changing economic landscapes in the sector.

Emphasizing Innovation in Food Logistics LogiFOOD Southeast Asia 2024 will showcase cutting-edge solutions for the entire food logistics chain, from the initial mile to the final mile. The event will feature state-of-the-art food storage equipment, advanced refrigeration systems, efficient processing methods, and eco-friendly packaging solutions. These innovations aim to improve operational efficiency and cut costs for businesses.
